| Name               | <input type="text" value="Vicki"/>   |
| Address            | <input type="text" value="Abbots Field Estate OFF Burndell Rd BN18 0GF"/>  |
| Type of Comment    | <input type="text" value="Objection"/>   |
| Comments           | <p>I object because it would create increased emissions, very poor air quality, increased noise and smell pollution and the chimney would be undoubtedly extremely unsightly in such a beautiful area. I have previously lived in an area where one of these was built and we were told it would not have any detrimental effect on the air quality but IT DID!!</p> <p>The smell was disgusting and potentially extremely harmful to anyone living within the same area - maybe it IS something that is needed but not in this area, it should be built a long way away from any residents!!</p> <p>PLEASE REFUSE THIS APPLICATION!</p> |
