Comments	<input type="text" value="This planning application is another example of the ruination of the rural aspect of Climping/Yapton and Ford. This building will dominate the sky and will be seen from miles around. Most people who live here have chosen to be here because it is rural with fields and wooded areas. The road infrastructure is fragile enough as it is, this processing plant will create a much heavier loading of large HGVs slowing traffic movements to almost a standstill. Both Church Lane and Yapton Road are not robust enough to deal with this sort of traffic."/>
