**Date:** 03 September 2021 10:51:29

---

Dear Sir,

I still oppose this application as none of the points I made in my email dated 15 May 2021 have been addressed.

There will on average an **HGV vehicle every 4 minutes** arriving or leaving the site. This will cause an increase in traffic on the A259 notwithstanding the number of vehicles now involved in online deliveries.

There is no financial penalty imposed if the number of vehicles and the time they access the site is contravened.

In the statement submitted by Cllr Jacky Pendleton, it clearly explains that the technology to be used is old and dirty and will pollute the surrounding area.

Yours sincerely,

Siobhan Jasper

**Subject:** Proposed incinerator - WSCC/011/21

Dear Sir,

I oppose the application to build an incinerator on Ford Circular Technology Park for the following reasons;

1. It will cause an increase in traffic on the A259 and the surrounding area.
2. The chimney will stand out against the skyline and the pollutants will fall on the surrounding houses.
3. There is also a proposal to build more housing and a school on this site, and therefore it could be a health and safety issue for those residents.

Yours sincerely,

Siobhan Jasper
