James,

Our responses are as follows:

45: No comment.

46. The agency is the EA and there are no substantiated odour complaints logged by the EA that relate to the operation of the current site activities. The EP is enforceable by the EA in the event that there are substantiated complaints.

49. The busy periods when doors will be left open would be infrequent so the two statements are not in conflict.

52. No comment.

53. The period is indeed short term, in relation to the overall period of site operations.

Kind regards

Steve,

Can I just check whether you intended to provide any responses to points 45, 46, 49, 52 and 53.

In particular 46 and 49?

James
