

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Michael Newman"/>
Address	<input type="text" value="NICHOLSFIELD, 55, NICHOLSFIELD, BILLINGSHURST, RH14 0SR"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>Again I fail to see how a claypit and recycling facility is going to benefit any of the local community or future generations other than the applicant. Increased heavy vehicle movement, noise, pollution, loss of green space, damage to local environment, damage to roads, damage to local wildlife. Hugely damaging and entirely unnecessary stress and anxiety caused by concern for our local environs to all reasonable and conscious inhabitants.</p> <p>Furthermore, any further delay in calling an end to this nonsense application will only see more time, effort and resources of the local community spent fighting it rather than concentrating on something that might bring us genuine benefits. What compensation for time and resources will the people of Loxwood and local villages receive for having to oppose this ridiculous application. Shame</p>
