Comments	The infrastructure of such a small village wouldn't be able to cope with the traffic that this would create never mind health and safety concerns of these lorries coming through the village as there are very few footpaths and often people are forced to walk in the road. In a village where the vast majority of people are elderly or young family's this shows very little care for the community. Not to mention the woodlands, animals and nature that occupies this site and surrounding areas. development and planning budgets might be better spent on supporting and enhancing the fellow community rather than taking more green spaces away.
