Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Barbara charlton	
Address	FOXHOLES, 9, FOXHOLES, HORSHAM, RH12 3DX	
Type of Comment	Objection	
Comments	I am honestly amazed that this application can even be considered due to the total number of local objections. Yet more loss of ancient woodland, natural habitat for wildlife and loss of peace and quiet enjoyed by locals and visitors alike. And I haven't even mention the noise of multiple HGV lorries and tipper hurdling along the Loxwood Road and recently resurfaced A281. There will likely be more deaths on the roads (A281 death by the The Downs link) and again the noise and pollution they will cause does not bear thinking about. All of this destruction and pollution in this area HAS TO STOP! Please do not put financial gain above your consciences and STOP this application and all future ones that affect our glorious countryside. Thank you in anticipation of your conscience decision.
