

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Grace Moore"/>
Address	<input type="text" value="HIGH STREET, 136, HIGH STREET, CRANLEIGH, GU6 8RF"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object to this application because of these main reasons</p> <ol style="list-style-type: none">1 I have two horses that I keep directly opposite the entrance to the proposed site and one of my horses is elderly so I worry about his health and stress levels with seeing that much traffic going in and out at all hours of the day.2) it's the only entrance to a bridle path where I and other horse riders and pedestrians would have to share with huge lorries on such a small pathway.3) there are 3 houses that are directly on this site and the noise and pollution would be horrific for them.4) not only do I worry about my animals but also the local wildlife you would disturb in their natural habitats.5) the traffic is bad enough already I can only imagine how much worse it would become especially on that bend with inconsiderate drivers. (THAT ROAD IS A 60MPH) which I find inaccessible and dangerous anyway I can't see drivers of those lorries slowing down for me, my horses or local walkers. <p>Thank you for reading this. I hope you will understand that this clay pit site is going to affect a lot of peoples lives and be a huge danger to our livestock, wildlife and countryside that have been A real credit to us in the last 18 months they have been our freedom from lockdown and tearing into this by creating a clay pit will damage people that have used our local area as a sanctuary.</p> <p>Grace Moore</p>
