Comments	Dear Sirs, Quite frankly I'm appalled that a piece of ancient woodland, such as this, should be even considered to be ruined in such a way. It's all very well to talk about replacing these woods at some time in the future, but you can never replace ancient woodland. Destroying our countryside in this way, especially at a time when we are all concerned about our planet just seems entirely ridiculous . Leave these woods alone, and do not allow such a development which is bound to spoil the area and dramatically increase heavy lorry traffic , unsuited to the roads and tracks of this beautiful part of the country.
