Address	<input type="text" value="25 Gaskyns Close, Rudgwick, Horsham, Westy Sussex RH12 3HE"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I strongly object to potentially intrusive, noisy & polluting Loxwood ClayPits Ltd plan for a commercial waste recycling plant and associated clay pits sited near Loxwood on the grounds of:</p> <ol style="list-style-type: none">1. the destruction of ancient woodland and all the potential loss of natural habitat for wildlife habitats, in this point in time of climate change when we need to be supporting nature .2. The site is a Greenfield site and not Brownfield [which it should be] for such an enterprise.3. Great disruption by huge numbers of HGV's to and from the site on minor roads.The Loxwood Road is a restricted width carriageway.4. There is no need for more clay as reserves are good enough.5. Existing capacity for Construction and Demolition waste is already adequate and more suitably situated.6. This is an aberration of the Loxwood Neighbourhood plan or the Chichester District Local Plan in a rural area.7. The plan further exacerbates the existing water Stress in the area and result in increased carbon emissions.
