Comment for planning application WSCC/030/21

Application number	WSCC/030/21
Name	Howard Paton Barnes
Address	15, NURSERY GREEN, BILLINGSHURST, RH14 0EQ
Type of Comment	Objection
Comments	Why a NEW claypit in the middle of green belt when there are plentiful supplies of clay available for the next 25 years. Why a NEW claypit in the middle of green belt which will greatly increase HGV traffic along Loxwood Road and the surrounding area along roads which in several places have restricted width to allow them to pass let alone normal traffic which I experienced recently, almost driven into the ditch This development will destroy habitats of several animals flout the LPC business plan of dark skies policy, deprive the local population of access to walks across the area, I recently met a man from Esher who was visiting the woods to enjoy the butterfly diversity. Finally will this development be subject to the water neutral restrictions placed on all new developments in the area
