Comments	<input type="text" value="This cannot go ahead due to the environment issues, alongside the extra traffic through the village which will cause more pollution. We have a young son and to have this on our doorstep is not viable for a young family. The woodlands are used by many and this clay pit will destroy the tranquility of Loxwood. The clay pit should not be consider close to a residential area. There are many other places this can go ahead where families will not be impacted."/>
