Comments	<p>This is as much a clay pit as I am Batman! It is clear the intention here is to take in commercial waste and fill the hole the near worthless clay came out of. No evidence has been provided to support claims that there is a shortage of clay and which companies will take the clay from this pit.</p> <p>The safety of walkers will be put at risk and moreso the safety of road users in and around the junction with the proposed site entrance, as well as the route the lorries will take to the A281. The road is too narrow and visibility poor in areas which will make this a death trap!</p>
