Comments	<p>1. I believe the claim for the need of clay is overstated. There are no local brickworks demanding local clay. I suspect the clay extraction would never happen and they just want to sort waste.</p> <p>2. This is a most unsuitable location for a waste recycling business. Such a business should be in a brown field site near a major road. Not through country lanes and footpaths.</p> <p>3. There is a clear danger to other road users, such as pedestrians, joggers, cyclists and horse riders..</p> <p>4. This proposal brings no demonstrable benefits to the local community. If employment is cited as a benefit, it is not needed locally.</p> <p>5. The creation of noise, pollution and dust and smells is unacceptable in a tranquil rural setting.</p> <p>6. Ancient and established trees and woodland would be destroyed.</p> <p>All in all, this is a dreadful plan and should be dismissed out of hand.</p>
