Comments	I regularly come to stay with my daughter and son in law to assist with their family. I am very disappointed in the proposed development and wish to object. The traffic has always been a concern for me when I walk up Loxwood Road to the play park with my grandchildren and the thought of even more traffic in particular HGV lorries is very worrying. The road is not suitable for lorries and in particular, two lorries would struggle to pass without mounting the pavement. Accidents will happen and to prevent a fatality the development must not go ahead.  I would also miss the walks in the woodland as the proposed site is a wonderful place to take children	
		nt. This will all be lost and replaced with noise and pollutants.
