Comments	<input type="text" value="I have regularly walked the woods in which this development is proposed and it is unsuitable for industrial use. It is currently remote and tranquil, with no light pollution and a wide variety of wild life abound. The recreational use of the area will be seriously affected, causing health and safety concerns for residents, who will not benefit from it in any way. Access routes are unsuitable for heavy industrial use. More importantly, there doesn't appear to be any need for the products of the development."/>
