>

- > We strongly object to this planning application reasons
- > We understand that the main route for the lorries will be Spy Lane
- > This is a pick up point for school busses children from 8 years upwards walking to pick up points
- > Most of the residents in Spy Lane are retired and regularly walk dogs along the lane
- > There are many roads coming off Spy Lane which would be dangerous with cars go onto Spy Lane
- > The road is not wide and cannot take heavy trucks
- > When cars are parked in Spy Lane it would be difficult for lorries to pass
- > In fact if this does happen many residents will be parking in Spy Lane which will stop lorries passing
- > Next and in brief the loss of old woodland where people go walking
- > This development MUST not go ahead
