Comments	<p>The location of this site is not suitable for what is being proposed. The destruction of woodland - this area is an immeasurable resource for people to exercise and enjoy peace and nature. The economic value of this is difficult to measure and should not be underestimated. The environmental noise this operation would create would have an enormous impact on the mental health and wellbeing of surrounding communities, including residents in Loxwood, Tismans Common, Rudgwick, Alfold, Wisborough Green, Ifold and Plaistow. We also shouldn't be threatening wildlife habitat in this manner, with this are used by rare bats.</p> <p>The distances trucks are travelling, along narrow roads and into woodland is not efficient and is not safe, we should be reducing travel times and distances with regard to carbon emissions. These roads are frequently used by horse riders and cyclists and there are areas which are not wide enough for two large vehicles to pass. There is also the concern about trucks being in the woodland itself and the debris and dust this will create in the woodland and also on the routes in and out.</p>
