Comment for planning application WSCC/030/21

Application number	WSCC/030/21
Name	Richard Davies
Address	15 Pondfield Road Rudgwick
Type of Comment	Objection
Comments	My wife and I regularly visit Loxwood as we have family living there. Our principle concern is the extra traffic generated by this application. Currently the Loxwood Road is a narrow country lane with little traffic, the carriageway is narrow and there are no purpose built passing places or laybys. The

prospect of heavy lorries using this road is a huge worry from a safety point of view as well as the noise generated in this rural part of Sussex.

We also worry about the effect, if this application is successful, on the peaceful nature of the Loxwood

We also worry about the effect, if this application is successful, on the peaceful nature of the Loxwood Road area, where extra vehicular movement would have a major negative impact on the natural environment.
