

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Chris Heath"/>
Address	<input type="text" value="HYES FARM, GUILDFORD ROAD, GUILDFORD ROAD, HORSHAM, RH12 3BX"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I know nothing about the need for another clay pit but the location in a remote area and miles from any local brickworks, with all the transport thereby involved just seems wrong and contrary to government policy.</p> <p>As regards the inter twined waste site, national policy states that these should be located in built up areas on brownfield sites - this is neither.</p> <p>HGV traffic implications would appear to be quite horrendous on narrow country roads, further exacerbated by the access route effectively sharing the woods with walkers, riders and cyclists with all the dangers that implies. I use the road quite regularly between Rudgwick and Loxwood and the impact at the site entrance is clearly going to be dire.</p> <p>Reference is made in the temporary closure of a footpath where temporary equates to 33 years - for many of us that is well beyond our lifetime and to me that is just a laughable definition of temporary. This is mixed woodland currently enjoyed by both people and wildlife alike which will massively damaged by this development.</p> <p>Please ensure this application is rejected.</p>
