

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Diana Kay"/>
Address	<input type="text" value="FOXHOLES, 19, FOXHOLES, HORSHAM, RH12 3DX"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="I object to this shocking, monstrous and profiteering application based on the fact that there is no demand for additional brick making clay in this area. WSCC already has enough reserves. We do not need a waste site at this beautiful greenfield rural and peaceful woodland area where there are many ancient trees, endangered bats, wildlife and natural habitat. Trees would have to be felled which surely goes against the Governments environmental plans for a net carbon zero country. Waste sites should be sited in built ups areas or on brownfield sites. There will be so much noise and light pollution from the site which again will spoil the area especially for the residents living there. The most perturbing thing about this application is the horrendous thought of all the HGV's tearing through our quiet narrow country roads and across a public right of way. We have had to endure this for many years with the Lynwick Street brickworks and as that is now coming to an end, the last thing we need is more HGV's on our roads. I also find it strange that this application does not confirm to any local neighbourhood plan which begs the question why have we worked so hard to put these in place if they just get ignored!! It really saddens me to think that WSCC could even entertain this proposal. I have lived here for nearly thirty years and never been so upset by a planning application. I implore the members of the WSCC planning committee to throw this application in the bin where it belongs. I can imagine that residents will be looking very closely at the councillors that they voted in as this will surely be a vote loser at the next county elections if you allow this to proceed. Please do the right thing!"/>
