| Comments | <p>I would like to object to this planning application on the following grounds:-</p> <p>There is currently sufficient capacity for construction and demolition waste in West Sussex in established locations which are far more suitable than this ancient woodland area. The application is on a green field site, National Policy states that waste sites should be sited in built up areas or brown field sites. The proposed operation also does not conform with either the Loxwood Neighbourhood Plan, or the Chichester District Local Plan for development in a rural area</p> <p>Environment - The development will have a major impact on local wildlife habit and species. The layby parking area where the wheel wash is proposed is in irreplaceable ancient woodland. The plan suggest widening the track for the HGVs. This would affect the fauna and wildlife. There are lots of rare butterflies living near and around the track.</p> <p>These are my main reasons for objecting the planning application.</p> |
