Comments	<p>This application for a development which is totally out of keeping with the surrounding area would also be seriously detrimental to everyone living in the vicinity. HGV traffic along Loxwood Road and through Loxwood, Tismans Common and Bucks Green would be disastrously unsafe - the roads here are narrow and in some cases two vans can't pass - I shudder to think what will happen when a large HGV meets another vehicle.</p> <p>This proposal is for an industrial-scale development in the middle of some beautiful woods. It must be possible to find an alternative location which would not cause so much environmental damage.</p> <p>It is unconscionable that a planning application of this nature could be allowed</p>
