Comments	As a resident of Loxwood for over 30 years I have seen many changes and developments in t there has been a huge amount of building, traffic has increased and the countryside is being beyond repair. As a Builder and Bricklayer for over 45 years I have a wealth of knowledge on subject of clay, bricks,brickworks and local materials. I cannot understand why the proposal i called Loxwood Clay Pits when there is absolutely no demand for clay in West Sussex - trans the clay out of the area would not be either environmentally or finacially sound - so in effect really being developed is a hole in the ground - a waste recycling unit which is not at all suita greenfield site. I have lived in the Sussex countryside all my life, deer stalking and working my dogs over 80 the damage to our habitat and natural environment is something I consider to be a total trag- will do whatever it takes to protect these woods. Albi Lyons	damaged the s being porting what is able on a years,
