Type of Comment	Objection
Comments	I do not think this is a suitable location for this project. It is a greenfield site and should we not be protecting these instead of getting rid of them? It will increase the amount of HGV's in this location, an area that is not suitable for heavy vehicles. At present it is a nice quiet location for a walk and this would have a severe impact on the enjoyment of a stroll in the countryside. Please consider carefully as there is no going back once you've removed the trees and chanced the entire landscape.
