Name	<input type="text" value="susan page"/>
Address	<input type="text" value="THE LODGE, LOXWOOD HALL, BILLINGSHURST, RH14 0QP"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>*This proposal contravenes the National Policy which states that waste sites should not be located on greenfield sites. This is particularly detrimental in ancient woodland.</p> <p>* The proposal would constitute a loss of amenity for the public who use the area (walkers, and riders) caused in part by the HGV's and destruction of the area in general.</p> <p>* There is a safety issue from HGV's entering and leaving the site exacerbated by the narrowness of the road (5.5 m maximum).</p> <p>* The proposal would have a major and destructive impact upon local wildlife; including rare species of flora and fauna.</p> <p>* There is no current demand for more clay with more than 25 years of reserves within the county.</p> <p>* There is sufficient capacity elsewhere in West Sussex for waste disposal and in any case the proposal will only recycle 50%.</p> <p>This proposal would be damaging and dangerous for the above reasons and should not be granted.</p>
