I can't believe this is actually being considered! Destroying a beautiful natural area thriving with wildlife for commerce. At a time of environmental crisis, those seriously desiring this should feel ashamed and question their priorities. The wildlife and wild habitats lost can never be brought back.

Plus, the local road network is already struggling with potholes etc, and not set up for more, regular heavy traffic. Local villages can't cope with the extra traffic from all the current building of new homes all over the place (e.g. Rudgwick, where I live, has a problem with too much traffic and lorries going too fast. There's no safe crossing point in the village.) WSCC will be paying for all the road damage and extra traffic measures required to make it safe - I trust this has been considered, as it is already not safe.

The impact of 33 years of extra traffic, noise pollution etc, will cause harm to animals and distress to the people who have chosen to live here because it's peaceful. I'm sure it will negatively affect Loxwood house prices too. Please put a stop to this nonsense and deny the application.
