I would firmly like to object to this catostrophic plan that has been submitted for Loxwood Clay pit. I live locally in Loxwood and have done for most of my life, the destruction of the woodland to make way for this is alarming when you consider all of the wildlife that will be wiped out or having to find a new home and the beautiful orchids and plants that surround the area will be lost, you can not replace what has taken hundreds of years to be created.

The other main point is the traffic increase and noise, our little roads struggle with daily cars let alone the masses of lorries day in day out for years to come! The roads are in an awful state as it and what would come has been shown already near cranleigh rugby club where there is a similar lorry usage and the roads are ruined for everyone!

To even think that this planning application is even being considered is mind blowing .
