Type of Comment	<input type="text" value="Objection"/>
Comments	<p>Pallinghurst Woods is a peaceful, wildlife rich area of West Sussex. I regularly visit family and friends within the area and enjoy the woods. The proposal will not only destroy the local wildlife but also the local community. I thought we were against wrecking beautiful natural greenfield areas?</p> <p>I strongly object for the following reasons:</p> <ul style="list-style-type: none">- The wood is a lovely area to walk and see the nature, the development will take this away by driving away / killing the wildlife.- There are a beautiful footpaths that I walk regularly that will be closed.- The noise and disturbance from the recycling facility will have a huge impact on the local community and wildlife- The local roads are not built for the increased HGV traffic and will have a severe impact on the local villages- The increased traffic will also be a safety concern for locals.- There is local farming activity that will suffer from the development
