Comments	<p>I strongly object to this application. 42 lorries a day travelling on the Loxwood Road which is narrow in places and with school children walking alongside and waiting for school buses would be an accident waiting to happen.</p> <p>If these lorries were to regularly exit and enter the A281 which is a very congested road with poor sight lines it would impact on safety for other road users. I have relatives who live close to the proposed site who already complain about the noise and speed of traffic and this would be unbearable.</p> <p>This application is against several development plans for rural areas and the size and disruption to the local environment with NO benefit to the local or wider community is completely unacceptable.</p> <p>The impact on wildlife habitat and species in the area must be protected from this company in an area where clay is not required locally.</p>
