Comments	<p>My objection to the Loxwood Clay Pit development is because the access to it would be along a public track that is on my land. The HGV traffic would impinge on our dairy farming business, for instance grazing for our cows.</p> <p>I also think that the location is unacceptable as the disruption of so many lorries running on unsuitable roads would be a huge risk to the general public.</p> <p>I also concur with the many objections already raised.</p> <p>Peter Harrison</p>
