Comments	<input type="text" value="This application is wanton environmental vandalism. There is an adequate 25/30 year supply of clay; the site is presently a quiet, rural, species-rich woodland much used by locals and visitors for walking, and used by people like myself for natural history observation and instruction. The road leading to the site is totally unsuitable for HGV use, and the proposed usage would destroy any amenity and wildlife value. This goes against many planning guidelines, and must be unequivocally rejected."/>
