I object to this plan on many counts, most notably due to the fact of the heavy amount of HGV traffic on the A281 junction entering our village many young mothers walk their children to school here and cross the road at this point. It would be totally unsafe if this were to go ahead. Furthermore the impact of the 15,000sqft building as well as the actual pit itself will have a devastating impact on local flora and fauna as well as nearby farming. Lastly the proposed plan does not conform with either the Loxwood neighbourhood plan nor the Chichester district local plan and will not bring any benefits to the local community.
