Type of Comment	Objection	
Comments	I strongly object to this proposal, the destruction of beautiful ancient woodland and all the life it supports, plus the dangers of having hundreds of lorries along the narrow country lanes.	
	The location is currently a peaceful haven, a home to countless wildlife and much loved and used by many, it would be devastating if this project goes ahead with all the noise and pollution it would bring.	
	This is exactly what we should NOT be doing with the global environmental emergency facing us all. The proposal is totally unsuitable for this area.
