Comments	<input type="text" value="I have lived in Alfold Bars all my life and the Pallinghurst Woods are literally on my doorstep. I am a Student of Photography and keen environmentalist - the destruction of this area of natural beauty is not acceptable for so many reasons, not least that it does nothing to compliment or enhance the natural environment. From my understanding there is absolutely no demand for clay in the local area and without a cause for a mineral site there can be no justification for a waste site. There are currently no buildings in this barely touched woodland and the impact of a 15,000 square foot building as proposed would have a catastrophic effect on the flora and fauna. I believe that it is our humanitarian responsibility to take care of our planet which is teetering on the brink of global disaster and my generation of millenials need to speak up against the wanton destruction of our natural world before the damage is done and it it too late.
