Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Anya Willow Rose Watson	
Address	EIGHT BELLS, ALFOLD BARS, ALFOLD BARS, BILLINGSHURST, RH14 0QS	
Type of Comment	Objection	
Comments	I have lived at the bottom of Pigbush Lane all of my life - since I was tiny I have walked in the woods with my siblings and dogs, we have built camps and dammed steams, seen the bluebells every spring and learnt the Latin names of all the flowers from my mother. We have watched the increase in Bat boxes in the trees and spent many days "getting lost" and very muddy. I now walk through the wood to get to work at the Fox Inn in Rudgwick. My closest friend lives on the other side of the wood and we cycle across and meet each other halfway - all of these things will no longer be possible if the proposed site is approved and the woods will be lost for future generations. The HGV's will make it too dangerous to walk along the narrow roads of the surrounding villages and cycling,horseriding and running will become hazardous . It is widely recognized that spending time in nature enhances quality of life and mental health - particularly in these times of Covid when many people have suffered severe damage to their mental health - I am studying PE and Geography and my interest in our planet is huge - we are after all the custodians of the environment and we need to protect our woodlands for future generations.
