Comments	<p>I wish to object to the application. I find it unbelievable that a company would still wish to destroy ancient woodland in times of environmental responsibility. Once destroyed this will be lost forever. No restoration of the area will rectify this damage. It horrifies me of the destruction being contemplated to the wildlife.</p> <p>The local roads are not fit for the additional type of vehicles to be used in the process.</p> <p>Quarrying should be only carried out next to the facility where the product will be used, which is not the case here.</p> <p>When will the human race stop destroying the environment? Please stand up for our future; we need the natural environment to survive as a species.</p>
