Comments	<input type="text" value="I object to this application due to the detrimental impact on local wildlife habitat, the loss of frequently used walking routes for local residents and the resulting carbon emissions. In addition, given there is no demand for additional clay in West Sussex, and a plan to only recycle 50% of the waste material being transported to site along narrow country lanes which are wholly unsuitable for use by HGVs, the cost that will be borne by the local community in terms of noise and air pollution and risk of accidents from increased traffic makes this application unacceptable on multiple levels"/>
