

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Sarah Hargreave"/>
Address	<input type="text" value="WILLOW TREE COTTAGE, SPY LANE, SPY LANE, BILLINGSHURST, RH14 0SS"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object for the following reasons:</p> <ul style="list-style-type: none">- The narrow roads in this area will not be able to cope with the volume of HGV lorries that will be using the roads creating congestion, road safety issues and delays getting to and from work.- This ancient woodland is lovely place to walk which supports our mental health and wellbeing. There are footpaths in the area which are used by a number of people and with lorries close to these paths is likely to cause an accident. The noise created by the proposed site will disrupt the peace and impact people's mental health. It will also impact on horses, the wildlife and their habitat. We should be protecting our green spaces and habitat for future generations.- Heavy lorries using the local narrow roads will create additional pot holes and side verge damage resulting in damage to cars and bicycles therefore road maintenance costs will increase.- This will also create congestion on the local roads and our road infrastructure is not fit for purpose to accommodate 42 HGV lorries a day. There is also a primary school in Loxwood; children walk to and from school, so child safety could be impacted.- I cannot see any benefits to the local community for the future. There is no demand for additional bricks plus we already have more the 25 years supplies; why do we need more? Requirements for building houses etc is likely to change in the future so there is no need for this site at all. <p>I have chosen to live in a rural area and this site is not in keeping with the local area.</p>
