Comments	<p>I strongly object to this application on the grounds listed below:</p> <ol style="list-style-type: none">1) Loss of amenity due to the access which will be required for the hgvs to run on as well as alongside the public right of way. As a horse rider and dog walker who used this bridleway and woodland frequently this proposal would make for hazardous walking and riding conditions2) public parking impact and loss due to the movement of hgvs3) the severe risk to other road users by the increase of c300% in hgvs on the loxwood4) the major impact on the local wildlife habitat and species some of which are protected5) the proposal will greatly impact the tranquillity of the area6) light pollution will be created in an area where there is none7) the impact of carbon emissions8) this is a greenfield site which and National policy states that waste sites should be sited in built-up areas or brownfield sites9) this site would not enhance, protect or compliment the natural environment in anyway whatsoever10) nor does the site bring any benefits to the local community <p>This site is wholly inappropriate for the proposal</p>
