Comment for planning application WSCC/030/21

	-	5 11
Application number	WSCC/030/21	
Name	Chris chessell	
Address	2 chapel cottage Petworth road Wisborough Green	
Type of Comment	Objection	
Comments	I seriously object to this proposal for so many reasons. 1. The local infrastructure is already heavily impacted by all the construction work in the area with all the many thousands new builds and further work is also being planned. the extra 42 HGV's is going to cause extra construction traffic on all the local roads, noise and vehicle pollution will be increased and cause unrest within all the local communities particular with them already being strangled for any sort of development. 2. Effecting the environment on many different levels not only by the pollution but also the wild life, bridal ways, general public who have been using these grounds for so many years. This has already been cordoned off and has annoyed so many residents as what was once a peaceful beautiful area is another piece of land that is being torn up. and made more dangerous for the public and horses riders to visit.
