Objection

I am appalled at the application to create a commercial waste recycling plant and clay pits close to Loxwood. I regularly walk the footpaths in and around Pallinghurst Wood with my family. I believe that this does not conform to the Loxwood Neighbourhood Plan. I only hope that Chichester District Council will stand up for its citizens and its rural communities and reject this proposal. It will completely ruin the area. It is not sensitive to where it is. How can you put a very large, noisy, dirty industrial operation in a beautiful, quiet, wooded setting near Loxwood?

Also, from the entrance of the site to the A281 it is 3.25km. This is along unsuitable minor roads and will have a severe impact on Bucks Green, Tismans Common and Rudgwick communities. The thought of massive HGV trucks travelling along very narrow roads is horrendous. Loxwood Road is only just 5.1m wide at its narrowest point and 5.5m along most of its length. This would be very dangerous for other cars and farm traffic especially in the winter months with wet weather and the risk of flooding, especially with snow and ice in the winter. There are no street lights and visibility is poor with overhead woodland canopy.
