| Comments | <input type="text" value="I object to this planning application for several reasons, some of which are as below: 1)It flies in the face of Government and Central Planning guidelines for such enterprises to be in 'brown' and not 'green' sites. By no stretch of the imagination does this application do so. 2)Both incoming raw waste material and the outgoing processed waste will result in a huge increase in HGVs on mostly unsuitable roads. 3)The additional traffic not only detrimentally impacts the natural environment but also has health implications as a result of noise and diesel fumes. 4)the safety of other road users and pedestrian is further jeopardized 5)The proposed development has no place in such a rural rea and I totally object to it"/> |
