

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Paul Jordan"/>
Address	<input type="text" value="TULLYS EDGE, RICKMANS LANE, RICKMANS LANE, BILLINGSHURST, RH14 0LD"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object to this application on so many grounds including: The very high level of HGV movements that this will generate, and the impact that this will have on road safety and local amenity resulting from the associated noise and disturbance. The absence of any local demand for the clay. There are no local brick or tile makers requiring clay and transportation of clay to remote non local makers is environmental madness. It must be recognised that the clay extraction is the trojan horse that will facilitate landfill and waste transfer at at completely inappropriate location. The development is completely inappropriate for such a rural area and will have a major impact on local amenities resulting in destruction of the much used local natural woodland environment. The development will have a major detrimental visual impact on the rural landscape. The application is contrary to both the Loxwood Neighbourhood Plan and Chichester District Council Local Plan.</p>
