

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Nils Figenschou"/>
Address	<input type="text" value="1 PALLINGHURST FARM COTTAGES, GUILDFORD ROAD, GUILDFORD ROAD, HORSHAM, RH12 3BQ"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object to this application as these are ancient, undeveloped woodlands that I currently have the pleasure of being able to walk through on a daily basis. This application would have a severe impact on the quality of my life as not only will I be able to take my usual walk, but the noise, light and fumes will impact any other walk I could take through the woods.</p> <p>This site is completely impractical for either a brickworks or the HGV traffic required to support it. The brickworks would cause additional negative impact on mine and my family's life as we live uphill from the site and would suffer from the light, noise and pollutants from the diesel generators . My partner has previously ended up in intensive care due to diesel particulates and I am particularly concerned about the impact of this development on her health.</p> <p>This is completely the wrong site for such a development and the application should be rejected.</p>
