

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Jane Silk"/>
Address	<input type="text" value="LOWER KINGS, CHURCH STREET, RUDGWICK, HORSHAM, RH12 3EE"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object to the above application on the following points:</p> <ol style="list-style-type: none">1 CLIMATE CHANGE/TREES. The significant loss of so many mature, life-giving trees flies in the face of the recent UN report on climate change and world-wide concern generally. It is contrary to everything now widely known and understood regarding climate change, threatening further the advance of global warming.2 WILDLIFE/ANCIENT WOODLAND. The destruction of an area of ancient woodland will impact greatly on many forms of wildlife - birds, insects and vertebrates - at a time when we should be preserving such important habitat more than ever to try and preserve rare and threatened species.3 ROAD SAFETY. The estimated huge volume of HGVs travelling along this windy, and at times narrow, country road will have a very significant impact on the safety of all who use this road - pedestrians, cyclists, horse riders, drivers of other vehicles and school children.4 MENTAL HEALTH. The constant noise and dust generated by this high volume of HGV traffic and work carried out on site will disrupt the tranquility and beauty of this rural area and threaten the mental health of all those who rely on it for their sense of well being in this busy world.
