

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Alastair Coxall"/>
Address	<input type="text" value="THE GATEHOUSE, PLAISTOW ROAD, PLAISTOW ROAD, BILLINGSHURST, RH14 0TR"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object on the basis of damage to the environment due to serious increases in:-</p> <ol style="list-style-type: none">1 Air pollution from 40+lorries per day, 5 days a week travelling in to this area.2 Noise pollution from the movement of these lorries will make life intollerable for people who live in the neighbourhood.3 Water pollution caused by removing clay and replacing it with building waste which could include asbestos and other hazardous materials. These materials could easily enter our nearby river system, especially with increased rainfall and flooding.4 Damage to the ancient woodland and the habitat of our local fauna.5 Traffic will increase, slowing other traffic on these minor roads and further increasing air pollution and noise. There is increased risk of traffic accidents and deaths.6 Damage to the roads will be very expensive for CDC. <p>The owners of this land do not live in the area and will not suffer from its destruction. This is being done simply for financial gain</p> <p>Alastair Coxall Ex-Ministry of Agriculture scientist who worked on air, water and noise pollution projects.</p>
