Objection

It is heartbreaking to think that this beautiful ancient woodland which is a greenfield site and used regularly by myself, my family and many others could be ripped up. To turn this calm and tranquil area into somewhere where there will be pollutants, noise and light pollution is unthinkable and totally unnecessary.

I live and work in the area and use the local roads on a daily basis. These roads are country roads and would not be able to cope with the amount of lorry movements each day. The impact on the road surface would be considerable. You only have to look at Wildwood Lane in Alfold to see the damage that constant lorry movements have caused and the huge cost to the tax payer in having the road constantly repaired and patched up.

This is a rural area and the increased traffic will have a severe impact on the local community with increased noise and pollution especially effecting the many homes that are situated close to the road. I STRONGLY OBJECT TO THIS APPLICATION
