

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Ray Robertson"/>
Address	<input type="text" value="PONDFIELD ROAD, 31, PONDFIELD ROAD, HORSHAM, RH12 3EN"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I strongly object to this application mainly because the unwarranted and commercially unjustifiable development of a green field location will result in excessive HGV traffic in a quiet rural area. The resulting environmental, noise and light pollution must not be forced upon us as local residents in the surrounding area. The development of this waste recycling and clay pit operation is not justified as there is already sufficient / over local capacity in both these functions.</p> <p>The excessive volumes of HGV traffic will cause considerable road safety risks both for pedestrians using the surrounding paths and bridleways as well as cyclists and other road users on the surrounding minor roads network through nearby villages.</p> <p>Not least will be the further dramatic effect on previously undisturbed wildlife, with a wide area of natural habitat being lost.</p>
