Comments	<input type="text" value="The traffic will seriously affect my journey to work, and the considerable delays will impede how much money I earn. I can't fathom the damage that this will have on the local wildlife. This will seriously impact all kinds of woodland wildlife, ground and flying animals, such as bats and birds. If Loxwood is to remain a habitable, appealing and prosperous village, the introduction of a devastating project such as this must not go ahead."/>
